

Solutions for Small Business

Backup, Storage and Recovery Solutions for Small Business and Home Offices

For small business, no one else offers the comprehensive and personally-tailored solutions provided by DataPreserve™. DataPreserve offers small businesses and home offices a unique range of solutions that incorporates both online remote backup and the proprietary ProZerver™ line of backup and storage devices.

We partner with DataPreserve to enable you to protect your critical business data, meet regulatory compliance requirements, and have peace of mind.

DataPreserve offers:

• Remote Backup

Ideal for small business and home offices that have high speed data connections and up to 100 Gb (and more) of critical data. Remote Backup is easily installed and once configured, has a set-it-and-forget-it setting. Your data is encrypted and stored remotely in a secure data center. Restoration is a simple process 24/7.

• Remote Plus

For businesses that require local storage of their data as well as the protection of remote backup, DataPreserve has a full line of ProZerver local storage and backup appliances that integrate with Remote Backup.

• Advanced Solutions

For small business with more complex storage and backup needs, DataPreserve provides a variety of solutions for local only, multi-server, and multi-office applications.
